Speaker Stand Model PLR40 Owner's Manual

Speaker stand assembly: To assemble please refer to the figure on the left.

Speaker mounting: The mounting brackets included with the PLR40 speaker stands will meet almost all mini bookshelf and satellite speaker mounting requirements. Simply use the supplied bolt to fasten the speaker to the speaker stand, or use the bolt that came with your speakers.

Height adjustment: Turn the adjustment knob counter-clockwise to loosen, adjust the height of the speaker stand. Turn the knob clockwise to fasten.

Wire Management: This stand allows speaker wire to be "hidden". After the stand has been assembled, feed the speaker wire into the small hole on the side of the pipe at the top of the stand. Push the wire until it comes through the hole in the bottom of the base.

90 Day Limited Warranty
